### Law Enforcement Employment Information

The law enforcement employment information presented in this section is comprised of the number of part- and full-time sworn officers, full-time civilian employees, and auxiliary officers employed as of October 31, 2013. The part- and full-time sworn officer category includes the number of sworn personnel with full arrest powers (includes chiefs, sheriffs, commissioners, superintendents, etc.) who are paid by their agency or federal grant funds. The full-time civilian category includes civilian employees (clerks, stenographers, telecommunicators, mechanics, civilian jail personnel, etc.) who are paid by their agency or federal grant funds. The auxiliary officer category includes those officers, such as an auxiliary or reserve officer, who are subject to report in an emergency situation, and who are not paid by their agency or federal grant funds. Auxiliary officers paid by their agency or federal grant funds are accounted for under the part-time sworn officer category.

The employment rate for law enforcement personnel is calculated as follows:

$$\frac{\text{Number of Employees}}{\text{Jurisdictional Population}} \times 1,000 = \text{Employment Rate}$$

**EXAMPLE:**

A department with 60 employees and a population of 51,000 has an employment rate of 1.2 per 1,000 inhabitants:

$$\frac{60}{51,000} \times 1,000 = 1.2 \text{ Rate per 1,000 Inhabitants}$$

Law enforcement employment rates should not be directly compared to index crimes, non-index offenses, or the service-related activities performed by law enforcement officers. Service-related activities account for over 80 percent of the officers’ workload, and usually remain unpublished. Each community should consider all the factors related to the causes of crime and determine the role of the law enforcement department relative to crime and to required services.

These agencies include state agencies, airports, colleges and universities, fire department/arson investigations, forest preserves, hospitals, other agencies, park districts, and railroads. Since miscellaneous agencies do not have a population, employment rates cannot be calculated. The 1,369 civilian employees comprise 38.5 percent of the miscellaneous agencies work force. In 2013, miscellaneous agencies reported zero auxiliary officers.
